

QWS3270 PLUS is fast.

Loads and connects in seconds.

QWS3270 PLUS is compact.

< 1MB of RAM / Session.

< 8MB of Fixed Disk Space.

QWS3270 PLUS installs in about a minute.

In fact the only questions that the users are asked are:

- 1) What language do you want?
- 2) What is the address of the mainframe you wish to connect to?

QWS3270 PLUS downloads is less time, than it takes to get a coffee.

Would you believe it takes less than 3 minutes to download at 56K.

Looking for cost effective IBM mainframe connectivity software with outstanding support?

When companies require access to their corporate data, they look to QWS3270 PLUS for their solution. QWS3270 PLUS provides, cost effective, TN3270 mainframe connectivity. Prices start at \$49.00 US/License.

Service out of this world.

Support is an integral part of your corporate availability. That's why we staff our support line with knowledgeable programmers who get to the root of your problem quickly. We offer support in two different ways:

- 1) 45 day no-charge technical support.
- 2) Software Maintenance, with unlimited technical support via telephone and Email — plus 1 year of upgrade protection for your software. Billed annually — at a rate of 15% of the selling price of our software.

Support — What our customers think.

"I recently acquired Jolly Giant's QWS3270 PLUS product. I was impressed to find their technical support was VERY responsive, they KNEW their product, and I was treated in a friendly and courteous way. I would rate my business with JGS (on a 1-10 scale) a 9.5. Thanks and keep up the fine work!"

Larry Sanelli, Arizona Public Service Co.

Performance — Getting the job done in less time.

We at JGS believe that performance, reliability and cost containment are critical to your business success. QWS3270 PLUS has demonstrated it's reliability as our customers have purchased over 900,000 copies to date. Our prices are about half of our major competitor, allowing you to implement a very cost effective solution.

Jolly customers.

Many of today's Fortune 500 customers use and happily recommend QWS3270 PLUS to provide access to their mainframe corporate data. "JGS has always been very responsive — much more responsive than the larger well-known software companies."
